Oggetto: Request for clarification

Dear

Mr. Ludovico Camposampiero

RSI-Swiss Radio and Television

First, we would like to state that MRL Investment (MU) LTD (hereafter “the Company”), is dully registered in Mauritius, with registration number 187076GBC and it’s authorized and regulated by the Mauritius Financial Services Commission ("FSC") with license number GB21027168 to carry out investment services and trading in financial instruments as permitted under the Mauritius Financial Services Act 2007. MRL INVESTMENTS (MU) LTD owns and operates the brand “Equiity” (www.equiity.com).

Second, The Company follows strict regulatory requirements, including but not limited to marketing communication with potential and existing clients.

Further to thorough internal investigation, please see our respond to your questions;

1. The Company DOES NOT have such an advertising, therefore we are unaware, why and by whom such a “page”, advertising, was generated and from where an email was sent to you.
2. No and not permitted to anyone to produce such “bogus pages” on behalf of the company. As already mentioned, the company follow strict regulatory requirements, all marketing material must be first approved by the compliance, before it is produced. From internal investigation, there is not any marketing material that was reviewed or approved using the “RSI articles pages” mentioned by you.
3. The Company is not aware of existence of any marketing related to “RSI”. Therefore, the question is irrelevant to us.

Unfortunately, the online market is full of scam companies that use regulated firms’ names and/or brand names, in order to attract clients fraudulently and hiding behind legitimate companies.

We would appreciate if you could also send us the “bogus pages” and the email you received, so the company can report that to the regulator and take legal actions, if possible.

Kind regards,

MRL Investment (MU) LTD | Equiity.com
